BLOCKCHAIN ARCHIVE INTEGRITY

Every document in this archive is cryptographically sealed on the Bitcoin blockchain via the OpenTimestamps protocol (~15,000 independent nodes worldwide). The SHA-256 hash of each document is permanently and immutably recorded. Any alteration of any document produces a different hash — tampering is mathematically detectable. This record is independently verifiable by any person on Earth at opentimestamps.org. No government, court, or institution can erase, alter, or suppress it.

ICC ARTICLE 7 · OHCHR GENEVA · FEDERAL COURT OF AUSTRALIA

This archive has been submitted to the International Criminal Court under Article 7 (Crimes Against Humanity), the Office of the United Nations High Commissioner for Human Rights, and the Federal Court of Australia.
