Dr Richard McLean

By email: richarddrawsstuff@gmail.com **Private and Confidential**

Dear Dr McLean

Potential public interest disclosure

I am an authorised officer for the purposes of the *Public Interest Disclosure Act 2013 (PID Act)*. I am writing to you about your emails dated 18 and 20 April 2023 that were sent to PID@ndis.gov.au.

The purpose of this letter is to:

- give you information about public interest disclosures and the PID Act
- ask you for information about the concerns raised in your emails
- ask you for your consent to disclose your name and contact details.

Public interest disclosures

Public officials who suspect wrongdoing in the Commonwealth public sector can raise their concerns under the PID Act. An allegation made under the PID Act is a public interest disclosure.

This is also sometimes called 'whistleblowing'.

All Australian Government agencies, including the National Disability Insurance Agency (**NDIA**), have responsibilities under the PID Act to investigate public interest disclosures that are allocated to them. The PID Act says that a disclosure must be allocated to an agency if:

- the discloser is a public official

- the disclosure was made to an authorised internal recipient
- the information disclosed tends to show, or the discloser believes on reasonable grounds that the information tends to show, one or more instances of disclosable conduct.
The PID Act also says that authorised officers can ask for more information to help them decide whether to allocate a disclosure to an agency.

Your disclosure

Public official

I understand from your emails that you think that you are a 'public official' for the purposes of the PID Act. The PID Act says that a 'public official' includes:

- Commonwealth public servants who work in Departments, executive agencies and prescribed authorities
- members of the Australian Defence Force
- appointees of the Australian Federal Police
- Parliamentary Services employees
- directors and staff members of a Commonwealth company
- statutory office holders

- any other person who exercises powers under a Commonwealth law
 - people who are contracted service providers for a Commonwealth contract
 - Scott treadwell from the Federal Court has stated:
 - 'A public interest disclosure can only be made by a "public official"; paragraph 26(1)(a) PID Act. The meaning of "public official" is defined and includes current or past Australian Public Sector employees; section 69 PID Act. Section 30 of the PID Act extends this meaning to include employees of organisations which provide goods or services under a Commonwealth contract; subsection 30(3) PID Act. As a general principle an organisation which is a party to a contract that prescribes the terms for grant funding is not a contracted service provider for the purposes of the PID Act. On the information you have provided me, I am satisfied that you are, or were, an employee with the Department of Social Services, providing services under the trading name Rich McLean, Arts Life Coach, Peer-Support Worker & Mental Health Advocate.'
 - **people who are officers or employees of contracted providers for a Commonwealth contract and who provide services for the purposes of that contract**
 - people who are subcontractors to a person who is a contracted service provider for a Commonwealth contract and who provide services for the purposes of that Commonwealth contract.
From your emails, I am not sure whether you are a public official for the purposes of the PID Act. To help me to assess your emails under the PID Act, I am asking you to tell me more about how you are a public official for the purposes of the PID Act. You can do this by telling me which of the above types of public official you are.
- Disclosable conduct*
- I understand from your emails that you think that the information in your emails tends to show one or more instances of disclosable

conduct. The PID Act says that disclosable conduct is conduct within an Australian Government agency or by a public official that:

- contravenes a Commonwealth, state or territory law
- occurred in a foreign country and contravenes a foreign law that applies to the agency, official or service provider
- perverts the course of justice
- is corrupt
- constitutes maladministration, including conduct that is based on improper motives or is unreasonable, unjust, oppressive or negligent
- is an abuse of public trust
- involves fabrication, falsification, plagiarism or deception relating to scientific research, or other misconduct in relation to scientific research, analysis or advice
- results in wastage of public money or public property
- unreasonably endangers health and safety
- endangers the environment
- is prescribed by the *Public Interest Disclosure Rules 2019*. The PID Act also says that disclosable conduct includes conduct by a public official that:

- involves or is engaged in for the purposes of abusing their position as a public official
- could give reasonable grounds for disciplinary action against the public official.

OFFICIAL: SENSITIVE

Because of the amount of information you have sent me, I am not sure which information in your emails you think tends to show disclosable conduct. At **Attachment A**, I have set out my understanding of your concerns. I am asking you to tell me if the information in **Attachment A** is correct. It would also help me if you could give me more specific information, including the names of any people who you have concerns about and the dates that you say the things in your emails happened.

Your consent

If I decide to allocate your disclosure to an agency for investigation, I must give the principal officer of that agency and the Ombudsman certain information about your disclosure including the information that was in your email. If you give your consent, I must also give the principal officer and the Ombudsman your name and contact details.

I have included a consent form at **Attachment B** for you to read, complete and return. **Request for information**

To help me to assess your emails under the PID Act, I am asking you to:

- tell me how you are a public official for the purposes of the PID Act
- tell me if **Attachment A** is correct
- complete and return the form at **Attachment B** by **9 May 2023**.

If I do not hear from you by this date, I will assess your concerns based on the information I have. I will also assume that you do not want me to disclose of your name and contact details to the principal officer of the relevant agency and the Ombudsman.

Further assistance

I am concerned about some of the things that you have said in your emails about your wellbeing. I encourage you to reach out to your support network and, if you feel you need further support to Lifeline Australia (13 11 14).

If you have any questions, please contact PID@ndis.gov.au. Yours sincerely

Dear Attorney general's office,

My NDIS client Dr rich mclean seems to be the unwitting centre of a conspiracy to pervert the course of justice.

It is my role to help Dr Mclean with issues in his life that cause stress that in effect exacerbate an already existing mental illness. The facts is that the stress Dr Mclean endures is systemic it is political it is conscious and it is malicious. The Federal court, in response to his PID acknowledged this:

'I am satisfied, from the correspondence and other information provided, that you believe that the information you have disclosed tends to show one or more instances of conduct that:

- perverts, or is engaged in for the purpose of perverting, or attempting to pervert, the course of justice; section 29 Item 3(a) PID Act;
- conduct that constitutes maladministration; section 29 Item 4 PID Act; and
- conduct that unreasonably results in a danger to the health or safety of one or more persons; or unreasonably results in, or increases, a risk of danger to the health or safety of one or more persons; section 29 Item 8 PID Act.

It is difficult to determine whether this belief is based on reasonable grounds or not. However, for the purposes of the initial assessment I am prepared to assume that the conduct disclosed in your correspondence and other information received is disclosable conduct for the purposes of the PID Act. '

It has now been demonstrated that Dr McLean is being used as a political scapegoat and is in effect - being sacrificed in order to save the face of his former partner and other Government officials and public servants.

The fact the Government acknowledges that there is an unreasonable danger to his health and safety and then continue on the trajectory to redact his prosperity and deny his access to the law and equality before it and further vilify him by force medicating him for delusions - that are entirely real - is I believe an embarrassment to The Australian Government. Not only is it a black slur on the treatment of a person who has been brave and courageous in his life - but it is also illegal.

He has shown me evidence confirming that:

He is banned from AFCA which has cost him millions,

He lost an over 1.5 million dollar case regarding superannuation and income protection at AHRC,

His work cover case at the AAT fails to be settled because Comcare say he is 'not an employee' - this is despite the Federal Court acknowledging they are satisfied that he was an employee of DSS, and if his case would fail at the

AAT and it is ruled in the Governments favour and he is redacted his work cover - his appeal would actually be at the Federal court.

The attorney general mark Dreyfus will not acknowledge his calls or emails, The office of prime Minister and cabinet refuse his FOI stating 'documents do not exist'

Dr Rich Mclean actually DOES exist - and has served this country by totally independently acting as an advocate and put his own life and experiences on the line of the public discourse as the only way he knew how to inform the broader public about the difficulties of his experience of mental illness. This resulted in him being awarded SANE Australia's 'Book of the Year' and a human rights award. Yet his human rights are nowhere to be found.

For your reference - here is a list of places institutions organisations and locations where he has personally spoken to oppose shame stigma discrimination and discrimination. As I am sure you will see Dr Mcleans ethical conceptual framework has been to speak from the heart with compassion and honesty and he has done so in a way which has been passionate and over years of elongated time:

Dr Mclean advocated against shame stigma discrimination and prejudice relating to mental illness for most of his life. He has spoken from Parliament House in Canberra to The school of religious and philosophical studies in Montreal Canada. He has travelled the Australian continent speaking at local state and federal levels including Dubbo to Warnambool to Canberra Sydney and Melbourne. Here is a list of places he has spoken:

Dear Mr McLean,

RE: **PERMANENT DISABILITY BENEFITS - SUPERANNUATION**
Member Number: 9783679

Thank you for your telephone call on 8th February 2007 requesting documents to proceed with a disability claim.

Please note that you may be eligible for an insured benefit if your medical condition occurred prior to 14th May 2006.

Our records show that you terminated employment with The Royal Melbourne Hospital on 14th May 2006 and the total and permanent disablement cover ceased on this day. We also note that Health Super forwarded a cheque for \$1,779.53 to you on 3rd August 2006, which represented your superannuation entitlements.

Should your claim be approved by the insurer, AIG Life and Health Super the estimated benefit payable at this date you last actively work (1st October 2005) is \$83,100.00.

Our insurer, AIG Life, assesses all disability claims using the following definitions:

Total and Permanent Disablement	Total and Permanent Disablement means that you:
	a) as a result of injury, sickness or disease: i) have not performed any work for an uninterrupted period of at least 6 consecutive months solely due to the above injury, sickness or disease; and ii) are attending and under the regular care and following the advice of a registered medical practitioner and have undergone all reasonable and usual treatment including rehabilitation for the injury, sickness or disease; and iii) after consideration of all the medical evidence and such other evidence as AIG Life may require, have become incapacitated to such an extent as to render you unlikely ever to be able to engage in your own occupation and any occupation for which you are reasonably suited by education, linguistic training and experience. OR b) have suffered the total and irreversible loss of use of: i) both hands; or ii) both feet; or iii) one hand and one foot; or iv) the sight of both eyes; or v) one hand and the sight of one eye; or vi) one foot and the sight of one eye.
	Only one benefit payable and the amount payable upon permanent disablement must not exceed the death benefit.

Dr Mclean's then rejected superannuation TPD and income assist cover from Australian Super was heard at AHRC - but they free kicked it to the opposition in a way which was totally not impartial.

Dr Mcleans entire home was destroyed by being taken to the tip whilst he was incarcerated. That was overseen by the Hospital and the Police.

He was additionally violently attacked in Footscray and despite video evidence that the Police FOI refused to give -the affray was pinned him by a VOCAT tribunal.

Dr Mclean was also literally run out of town by the police whilst suffering incredible financial abuse and family violence because they were threatening him with themtntal health act and incarceration.

Lastly Dr Mclean was actually violently attacked inside Weribee mercy hospital by and underworld Government thug. There was no recourse and the attack was blamed on McLean who acted in self defence.

In line with the Government oppression and redaction of his finances, his PLR and ELR payments all but dried up on 2017 -about the time he was, Dr Mclean believes - framed by Russell ball.

AFCA by their own policy had only three weeks to come to a determination for a financially marginalised person. Dr Mclean's took over a year and a half and then he was banned from all communication with AFCA.

Advised timeframes are targets. Case complexity and AFCA complaint volumes may affect the time taken to handle individual complaints.

¹ Most complaints will progress through the automatic registration and referral process.

² Some complaints may not be appropriate to automatically refer back to the financial firm because of the subject matter, urgency or the accessibility needs of the complainant.

Dr Mclean has always been sorry for any harm that has come to Dr Whittaker, but at the time, he was not registered for GST and he was not searchable on AHPRA's online database.

I love Dr. Whitaker, one of the best & friendliest family doctors who really cared about his patients. Normally you would only find these types of doctors in country towns. So sad to lose him from Foxs Bay all of a sudden. Unfortunately, for some unknown reason, Millennium Medical Centre has become a revolving door of doctors over the last few years. I hope he makes a comeback and sets up his own clinic there in the not too distant future.

Dr Mclean has a government login for his work contracted to the NDIS at DSS. This alone should have paved the way for his work cover payments to be paid. Incredibly it has been over two and a half years and Dr McLean has never received a cent.

Dear Dr McLean

Thank you for your correspondence of 8 December 2021 to the Attorney-General and Minister for Industrial Relations, Senator the Hon Michaelia Cash regarding your experience with Comcare. The Attorney-General has requested that the Attorney-General's Department respond to you on her behalf.

I am sorry to hear of the difficulties you are currently experiencing.

I note that you have raised a number of legal matters in your correspondence. It is not appropriate for the Attorney-General as the First Law Officer, or the Attorney-General's Department, to provide legal advice to members of the public or intervene in private legal proceedings.

I can however provide you with the following information regarding whistleblower protection in Australia. Current or former public officials who suspect wrongdoing within the Commonwealth public sector can make a public interest disclosure under the *Public Interest Disclosure Act 2013*. The Act requires Commonwealth agencies to investigate suspected wrongdoing and take appropriate action. The Act provides public officials who make a disclosure under the Public Interest Disclosure Act with protection from reprisal action. Further information about the Public Interest Disclosure Act is available on the Commonwealth Ombudsman website: [Public Interest Disclosure - Commonwealth Ombudsman](#).

I understand from your correspondence that this may be a difficult time for you. You may wish to contact Lifeline, who provide crisis support by phone. They can be contacted 24 hours a day, seven days a week at 13 11 14. You may also wish to contact SANE, who support people affected by complex mental health issues. You can contact them by email at helpline@sane.org or by phone from 10am-10pm, Monday-Friday: at 1800 187 263.

Thank you again for writing to us on this matter.

Yours sincerely

The AHRC unceremoniously reject Dr Mclean's financial issue and human rights abuse and in a totally non impartial way kick it to Australian Super.

Dr Mclean knows the Government is behind it because he approached TAL after AHRC were out of the picture and received a \$50000 settlement.

Dr Mclean has been damaged by methamphetamine use - this is used to replicate the effect that his dexamphetamine had that Dr Horgan prescribed him to great success.

He did a Masters Degree, a PhD, worked, illustrated a children's book and designed an art book and fund raised for the Royal Children's Hospital, and then ran his own business for two years as an allied health professional looking after marginalised people in the local community before he was scapegoated and incarcerated.

Dr Mclean and Mr Iasonidis in 2011. What was Iasonidis doing for the world whilst Dr Mclean was fundraising for sick children? He was unknown to Dr Mclean -

claiming the carers pension and exploiting Dr Mclean for apparently being ill to feather his own financial nest.

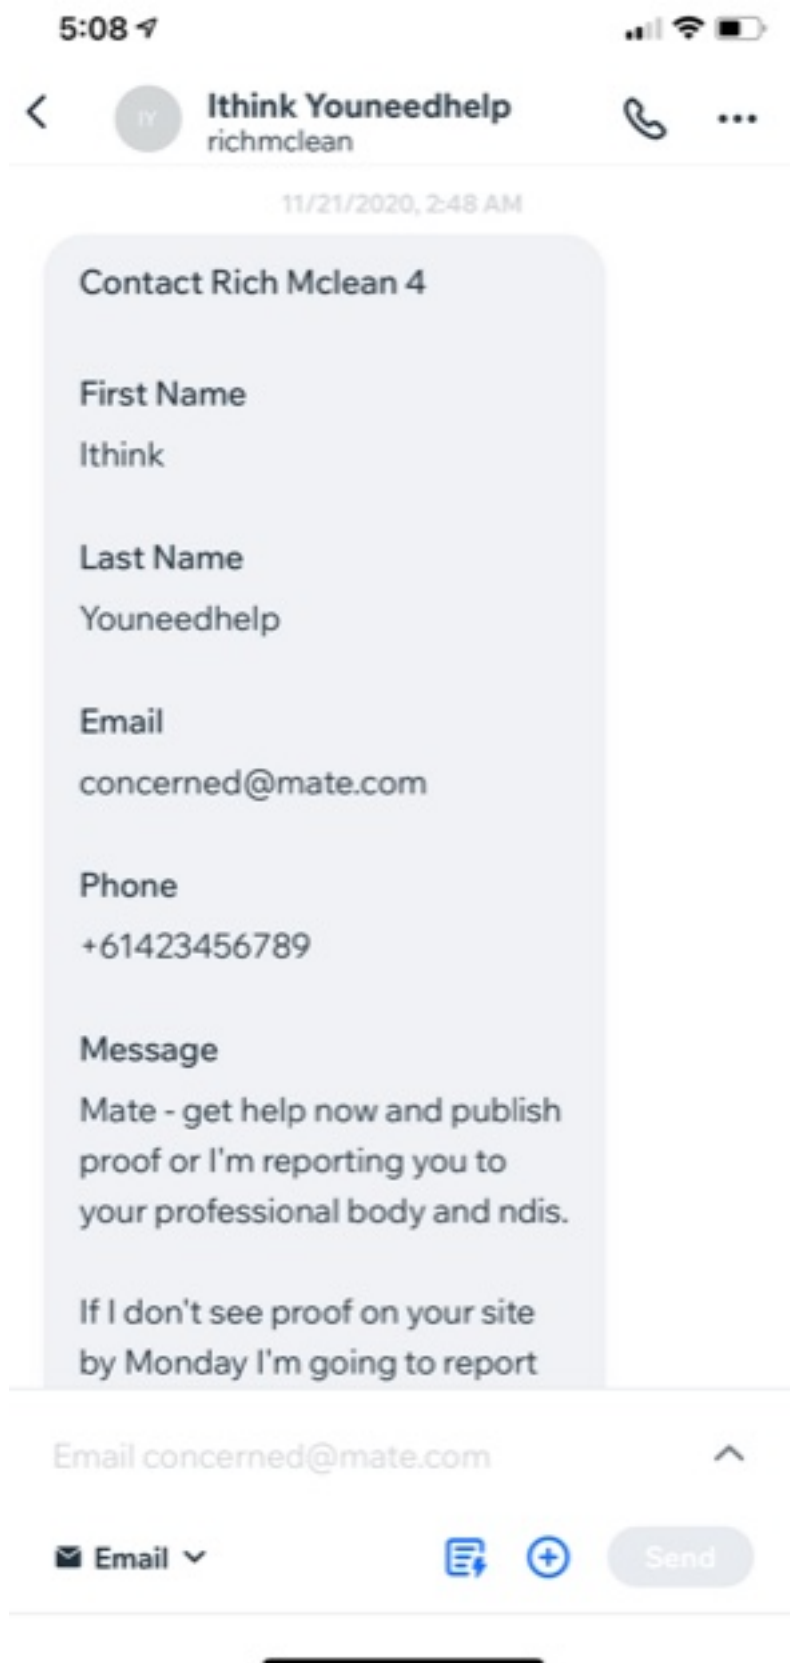

I wish to state that it is entirely unfair that Dr Mclean has acted with courage in which to advance the public narrative of psychosis yet he was vilified for it. An example of the way in which he has been vilified with utter impunity is when The Herald Sun took his brave words and ran with the headline 'MY DESCENT INTO MADNESS - How schizophrenia stole Richard Mclean's mind', which ruined his reputation publicly out of context and for which he was fired from his role as a news graphics artist and illustrator at The Age newspaper - a job which he loved.

Another issue has influenced Dr Mclean's literal destruction - that is that as a powerful force - he has attracted powerful intellectual figures. This happened when he was engaged to be married to Steve Stefan Iasonidis from 2010-2015. Steve is a formidable sociopath who exploited Dr Mclean and left him homeless. Due to laws around separation of assets for defacto couples, Mr Iasonidis owes Dr Mclean a fair and equitable settlement because they lived as a married couple for five years.

Dr Mclean attempted to engage a lawyer in order to settle, but Dr McLean was unable to get a lawyer. Dr Mclean demanded settlement from Mr Iasonidis' lawyer and the reprisal was swift: within two weeks of his demand letter Dr Mclean found himself incarcerated inside Weribee mercy hospital as a method of punishment for attempting to gain access to Mr Iasonidis finances. He was maliciously exploited for his public identification with 'mental illness.' Dr Mclean also threatened to blow the whistle on Mr Iasonidis 1.2 million investment in an offshore haven after the sale of his Abbotsford house. He was also going to blow the whistle on an admission from Mr Iasonidis that he was a prior cocaine smuggler and was present at murders - one notable one at the Collingwood flats where he admitted a Vietnamese man was shot and killed and three of them escaped in a car. To this, Mr Iasonidis responded on Dr Mcleans website in the following manner which is not only evidence of the crime in itself but demonstrates Mr Iasonidis malice towards Dr Mclean and the conscious harm that he enacts upon him:

At this time, Dr mclean had been the subject of family violence for years from Mr Iasonidis and Government oppression in that the Government refused to intervene in the settlement for Dr Mclean. Mr Iasonidis worked first for Apple then for ASIO, and despite ASIO's commitment to family values and additionally that staff were

public officials required to act ethically in all levels of Government, ASIO refused to intervene and AGIS the statutory authority that investigate ASIO also refused to investigate how Dr Mclean was exploited in their relationship and then continued to be financially controlled by Iasonidis for years.

Dr Mclean's courageous attempts to stick up for himself apparently landed Mr Iasonidis in hot water to the tune of a million dollars in embezzlement for which Mr Iasonidis has used a carrier service in order to threaten to harm Dr McLean and his beloved dog, Crystal:

Dr Mclean was also he believes framed by Russell Ball - a lawyer who informs Government policy and advises the Ombudsman (where Mclean is now a failed whistleblower) over a 2017 malpractice case in which evidence was silenced by: HCC, MHCC, The Police, IBAC, The Victorian inspectorate, AHPRA, NHPOPC and The Commonwealth ombudsman. In addition then health minister Greg Hunt towed the party line in refusing to acknowledge the evidence - that was permissible evidence before a court. The case never happened.

Hello Matthew,

I have listened to the recording of the consultation. There are many errors and omissions, identified by my "scribblings" on the attached copy of Mr McLean's transcript. In my submission. The inaccuracies are substantial and the Board should not rely on the transcript, or be ever circumspect if it does so.

In the "key facts" at the start of the document, Mr McLean says that "His [D. Whittaker] NDIS plan was not necessary". This gives the erroneous impression that Dr Whittaker imposed the document on Mr McLean. He presented the NDIS plan for completion by Dr Whittaker, having made a one hour appointment for that purpose.

Otherwise, I refer to the substantive response on behalf of Dr Whittaker and my submissions regarding the consultation and the recording of it by Mr McLean.

At the same time Dr Mclean wanted the sexualisation of him as a child acknowledged by authorities and compensated however a geelong VOCAT magistrate threw his case out citing him as 'doomed' to fail and at the same time rejecting any compensation. Dr mclean now believes that it was because dr Mclean was framed as an extortionist by Russell ball to the highest offices in the country only seeking money for the Whittaker malpractice case. Further - he was profiled in Government circles so that he would be redacted any type of prosperity in order to destroy him as a vengeful reprisal for being identified as the bad guy for having recorded Dr Whittaker and also for attempting to gain access to Mr lasonidis millions in superannuation.

This was further reflected systemically and politically when his financial determinations at AFCA - which were by their own policy supposed to take only six weeks for a financially marginalised person took over a year and a half. Dr Mclean's reality is already at a high level of uncertainty - this is why he records things. It is called 'reality checking' and is a coping mechanism for living with hallucinations and ideas of reference. Tim Gos - head of service delivery at AFCA called Dr Mclean and Dr Mclean recorded the conceitedly audacious way that Tim Gos acted with impunity in order to elongate Dr Mclean's financial destruction. Dr Mclean stated that this was a conspiracy to pervert the course of justice and that he was outraged by the victimisation from Government agencies and his continued financial destruction which was only an elongation of the coercive financial control that Mr lasonidis used to deny any settlement and enact family violence. Family violence is not ok and every day that Dr Mclean has been without food or money or with no home and the Government protect Mr lasonidis is another day that family violence and Government tyranny wins.

DrMcLean attempted to be compensated for the immeasurable detriment at the department of finance CDDC scheme but was rejected.

Dear Dr McLean

Act of Grace Request

I refer to your application for an act of grace payment, received by the Department of Finance (Finance) on 19 August 2022. The request relates to allegations about the conduct of various private individuals and organisations, as well as complaints regarding your interactions with a number of agencies, including Services Australia, Centrelink and the Australian Securities and Investments Commission (ASIC).

The act of grace mechanism is generally a remedy of last resort and is not used when there is another viable remedy available to provide redress. Furthermore, the act of grace mechanism is generally only available to provide a remedy for the actions of a non-corporate Commonwealth entity (NCE). A list of NCEs is available on the [Finance website](#). If the entity you have been dealing with is not an NCE, it is unlikely that Finance can consider your requests that relate to those entities.

I have reviewed the large volume of material that you have provided in support of your act of grace application.

Non-Commonwealth agencies

I note that the majority of your matters relate to private individuals and organisations, state government matters, and Corporate Commonwealth entities – all of which fall outside of the scope of the discretionary payment mechanisms that are available under the *Public Governance, Performance and Accountability Act 2013* (PGPA Act). If a request relates to the actions of a state or territory government department, or a private organisation (i.e. does not relate to the acts or policies of a non-corporate Commonwealth entity), an act of grace payment is unlikely to be appropriate and you should contact the relevant organisation directly to discuss the redress or review options that may be available to you to resolve your circumstances.

Commonwealth agencies

Regarding your claims that you submitted a report of misconduct to ASIC in relation to your interactions with the Hospital Contribution Fund (HCF) and your customer service concerns regarding AFCA, ASIC has advised Finance that it assessed the report of misconduct (report) submitted by you on 5 July 2021 and decided not to take action on the report on the basis that there was insufficient evidence of misconduct by HCF and that you should continue with the available dispute resolution processes in relation to your dispute with HCF. Finance understands that ASIC corresponded with you on 22 July 2021 in response to the report and advised you of the following:

- ASIC does not offer external dispute resolution services like AFCA and its role does not extend to taking action against financial firms on behalf of individuals in relation to their private disputes.
- ASIC believes that such disputes are best resolved through internal dispute resolution and external dispute resolution processes and with the benefit of legal advice.
- Whilst ASIC has an oversight role of AFCA, AFCA remains independent and responsible for its own individual complaints handling.
- Any action taken by ASIC is aimed at a broader public benefit, rather than a solution for individual reporters of misconduct, and ASIC does not intervene in private disputes and is unable to provide legal advice.

On the basis of the above information from ASIC, I am satisfied that in relation to your concerns regarding conduct your interactions with ASIC were dealt with appropriately by ASIC, on the basis that they are not matters for which ASIC has legislative or administrative responsibility.

Regarding your request that Services Australia/ Centrelink (Centrelink) acknowledges your former partner's relationship to allow a formal separation of assets, and Centrelink's handling of your Disability Support Pension and JobSeeker payments, you have not provided any information regarding any specific applications or requests that you have made to Centrelink in relation to these matters. Therefore Finance encourages you to contact Centrelink directly to progress these specific issues, as it appears that you have not exhausted all avenues available to you in respect of these matters you have raised. Furthermore, if you consider that Centrelink has been defective in its administration of your applications for income support payments, you may apply directly to Centrelink for compensation under the *Scheme for Compensation for Detriment caused by Defective Administration* (CDDA Scheme).

Information on how to apply for compensation from Centrelink is available on Services Australia's website at this address:

<https://www.servicesaustralia.gov.au/claiming-compensation-from-us?context=26266>

This website address also contains information on how to request a Review of a Decision prior to submitting a claim for compensation.

Based on the information provided in your application and your emails, I consider that in relation to your complaints about the above Commonwealth agencies, you appear to have other viable remedies available to you, that you have not exercised. Consistent with the policy guidance, I do not consider that an act of grace payment is a remedy of last resort in your circumstances, and therefore do not consider that an act of grace payment would be appropriate. I have therefore closed your application for an act of grace payment. Finance will not enter into any further correspondence with you on these matters.

Dr McLeann, you have also previously been advised by Finance that the act of grace mechanism is not the appropriate avenue to receive urgent financial assistance. Therefore I would also encourage you to discuss your circumstances with Centrelink, to ensure you are receiving all the support available from the Commonwealth. Information on Australia Government payments and the application process can be found on the Centrelink website here:

Lastly, Dr Rich McLeans PID at the NDIS has not been acknowledged within the 14 day time frame.

Dr McLean is universally ignored and gaslighted - but this letter with the evidence and my signature on it will force authorities to act in the case of this - a conspiracy to pervert the course of justice and Dr McLeans vile victimisation and family violence that is elongated by the federal Government who protect Mr Iasonidis.

Today - Dr McLean has no home and no food.

Dr McLean informs me he 'spends every day trying not to die'

It is unconscionable that the status quo of his scapegoating continue beyond this email.

Dear NDIS,

My client Richard McLean sent a PID to the NDIS on 18th of April to report disclosable conduct.

A PID has only 14 days to respond to a public interest disclosure via the legislation.

14 days has lapsed on Tuesday 2nd of May.

Richard has harm occurring to him.

He can neither :

1. Go to police
2. Be a whistleblower (so far)
3. Get a lawyer.

The federal court has acknowledged harm is occurring to him.

His former partner Stefan Iasonidis (who worked for ASIO), threatens to kill Richard and his beloved dog Crystal.

That is after Richard's whistleblowing efforts apparently caused Mr Iasonidis to pay 1 million dollars in embezzlement for his corrupt financial affairs.

Richard lives in hiding knowing the Government protect Stefan Iasonidis in preference for vilifying Richard with mental illness and exploiting him.

Additionally, Richard is banned at AFCA, he has been rejected at the AHRC, and the attorney general Mark Dreyfus will not acknowledge his emails or phone calls.

In addition the office of prime minister and cabinet refuse his FOI by saying he does not exist.

He does - he worked for over thirty years as an independent advocate for people who suffer from mental illness and their carers.

He has spoken all over this country including inside Australian parliament.

Richard has lived with no home nor food nor equality before the law access to the law, and the charter of human rights fort a person with a disability says that this IS the law for people with a disability.

In addition, Richard suffers schizophrenia, from which he suffers delusions and persecutionary ideas.

It is abhorrent that as an already marginalised person that the Government including the NDIS keep towing the party line of his persecution and victimisation with impunity - and it is destroying him.

In fact, this years long oppression caused his suicide attempt inside Weribee mercy hospital in Feb 21 - for which there is now a cover up and for which he suffers a cognitive brain impairment.

Regards.
